

Plan for Title VI

I. Introduction

The Department of Social and Health Services has established and implemented an affirmative action program in the area of employment in accordance with Title VII of the Civil Rights Act of 1964, Executive Orders, and Regulations thereunder. The program, in general, has been successful. Since the program was initiated, the department, while lacking in some areas of the program, has made tremendous strides in other areas. Admittedly, there is still a distance to go in order to completely eliminate discrimination on the basis of race, color, religion, creed, sex, national origin, handicap, or age in employment and personnel matters. Such discrimination, however, cannot be overcome in a short period of time. The department is making and will continue to make progress in that area and will continue to vigorously take positive steps to remove discriminatory employment and personnel practices, and to accomplish the goal of providing equal employment opportunities.

While striving for equal employment opportunities is necessary and beneficial to the department, it does not touch on all forms of discrimination. The department, fully aware of the negative consequences of discrimination on individuals, institutions, and society, has a legal, social, and moral obligation to eliminate all forms of discrimination within the agency.

The Department of Social and Health Services has, therefore, formulated in the following pages a non-discrimination plan consistent with Title VI of the 1964 Civil Rights Act. The general, long range goal of this plan is to promote the full realization of non-discrimination with regard to departmental programs and activities based on race, color, or national origin. The first part of the plan establishes the departmental policy and commitment; the latter portion establishes the methods of administration or procedures by which the agency will ensure non-discrimination. This plan, like the affirmative action plan, will be revised and updated on a continuing basis to ensure that departmental practices comply with the goal of the policy.

This plan, along with the affirmative action program, augments the departmental Minority Community Service, Indian Affairs, and Asian Affairs Policies. As in the case of these policies and others, it is how they are implemented or put into operation that is of major importance and, pursuant to this, the department shall place the greatest effort into the implementation of the plan rather than into the plan itself as a statement or a programming concept. In view of the fact that the mission of the department is to provide services and programs to all eligible persons, the plan set forth within shall be vigorously pursued.

II. Purpose

This plan is designed to establish a policy and specific procedures by which the Department of Social and Health Services (hereafter referred to as the

Department) will ensure compliance in accordance with Title VI, Civil Rights Act of 1964 (42 USC 200 d. et seq.) and the regulations issued thereunder by the US Department of Health, Education and Welfare (45 Code of Federal Regulations 80).

III. Policy

A. General

In accordance with Title VI of the 1964 Civil Rights Act and the regulations issued thereunder by the Department of Health, Education and Welfare, it is the policy of the Department that no person, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving financial assistance from the department, or for which the department has responsibility.

This policy applies to every aspect of departmental programs and activities. Its provisions are equally applicable to vendors, grantees, contractors, and sub-contractors of the department.

In establishing this policy it is recognized that the important language in the federal regulation governing non-discrimination is that it is the effect and not the intent of discrimination that counts. That is, the regulations prohibit the operation of any program in a manner which has "the effect of subjecting individuals to discrimination because of their race, color, or national origin, or has the effect of defeating or substantially impairing the accomplishment of the objectives of the program as respects individuals of a particular race, color, or national origin," 45 CFR 80.3(b)(2).

B. Practices of the Department

More specifically, but not limiting the above:

1. Provision of services, financial aid, or other benefits

The department will make no distinction on the ground of race, color, or national origin in providing to individuals any service, financial aid, or other benefit under State or Federally-assisted programs. As used here and elsewhere in this Statement of Compliance:

color, or national origin of individuals is considered in determining whether they meet any such requirement or condition; (3) the use of membership in a group as a basis for the selection of individuals for any purpose, if in selecting members of the group there is discrimination on the ground of race, color or national origin; and (4) the assignment of personnel to provide services, or the assignment of times or places for the provision of services, on the basis of the race, color, or national origin of the individuals to be served.

(b) "Service, financial aid, or other benefit" under State or Federally-assisted programs includes any education or training, any evaluation, guidance, counseling, or placement service, any health, welfare, rehabilitation, housing, or recreational service, any referral of individuals for any of the foregoing services, any consultative, technical or information service, and any scholarship, fellowship or traineeship stipend or allowance, and any loan or other financial assistance or benefit (whether in cash or in kind), which is made available (1) with the aid of State or Federal financial assistance; or (2) with the aid of non-Federal funds required to be made available for the program as a condition to the receipt of Federal financial assistance; or (3) in or through a facility provided with the aid of Federal financial assistance or the funds referred to in (2) above.

2. Use of facilities

Statement of Compliance, including opportunities to participate --

- (b) as conferees, observers, consultants, or advisors, or as members of advisory or planning groups or of technical review committees; or
- (c) as volunteers (e.g., as voluntary workers) or as patients or other subjects of study in survey or like programs.

4. Employment practices

The department will make no distinction on the ground of race, color, or national origin in its employment practices (including recruitment or recruitment advertising, hiring, layoff or termination, upgrading, demotion, or transfer, rates of pay or other forms of compensation, and use of facilities) with respect to individuals seeking employment or employed under State or Federally-assisted program, where a primary objective of State or Federal financial assistance for the program is to provide employment to such individuals, including programs under which the employment is provided to students, fellows, interns, residents, or others in training for related employment (including research associates or assistants in training for research work).

5. Advantages, Privileges, and Accommodations

The department will make no distinction on the ground of race, color, or national origin in making available to individuals provided any service, financial aid, or other benefit under State or Federally-assisted program, or to individuals afforded an opportunity to participate in any such program, any advantage, privilege, or accommodation (such as housing, eating, health, cultural or recreational services, facilities, or accommodations, or the use of offices, waiting rooms, or rest rooms) which the department makes available, with or without the aid of State or Federal financial assistance, to any such individual.

6. Use of criteria and method of administration

The department in determining the types of activities, services, financial aid, or other benefits, or facilities which will be provided or included under any such program (including community planning and co-ordination of programs or activities), or the class of individuals to whom, or the geographic areas, sites or situations in which, such activities, services, financial aid, other benefits, or facilities will be provided or included (or planned for) under any such program, or the class of individuals to be afforded an opportunity to participate in any such program, will not utilize any criteria or methods of

administration which result in or have the effect of distinction being made between individuals on the ground of their race, color, or national origin, or which has the effect of defeating or substantially impairing accomplishment of the objectives of the program as respects individual of a particular race, color, or national origin.

7. Application to subgrantees

The department will not approve any project for which State or Federal financial assistance would be provided unless the department has obtained from the applicant an assurance of compliance in a form approved for this purpose by the U.S. Department of Health, Education and Welfare or the department. The department will not approve any application for the provision of a facility, including the establishment of new or expansion of existing centers providing services, until it obtains from the applicant an Assurance of Compliance, HEW Form 44-1.

8. Agents and contractors

The department will require any individual, agency, organization or other entity which it utilizes or with which it contracts or otherwise arranges to provide services, financial aid, or other benefits under, or to assist it in the conduct of State or Federally-assisted programs or with which it contracts or otherwise arranges for the use of any facility purpose for which State or Federal financial assistance was extended, to comply fully with Title VI, the Regulation and all policies and procedures contained in this Statement.

IV. Methods of Administration

Set forth below are specific procedures to provide a framework for departmental management and staff to follow in taking concrete measures to ensure non-discrimination in all departmental programs and activities.

A. Procedures to ensure non-discrimination

1. Dissemination of information and training of staff within the department:

The department will inform and instruct its entire staff concerning their obligations under Title VI of the 1964 Civil Rights Act and the regulations thereunder, the Statement of Compliance filed by the department, and the Minority Community Services Policy. The agency shall also ensure that members of its staff, who have contact with program beneficiaries, are aware of the ethnic, cultural and language differences that may have important impact on the delivery of services to minority persons. This will be accomplished by:

- a. Making copies of all pertinent documents available to the entire staff;
- b. Issuing an "all staff" memo from the Secretary of the department concerning Title VI, its intent and meaning, and the obligations thereunder;
- c. Issuing an informational article in the departmental monthly publication, An Overview, concerning Title VI, departmental policy regarding non-discrimination, and the obligations thereunder;
- d. Providing, as part of a new employee's orientation training, information regarding the obligation, intent and meaning of Title VI and the departmental non-discrimination plan.

2. Title VI and Departmental non-discrimination compliance by other participants in the Departmental programs

The department recognizes that its obligation for compliance extends to its vendors, contractors, subcontractors and other providers of services, financial aid and other benefits under the departmental program. The department shall assure that such participants in its programs comply with Title VI and its regulations, and the departmental non-discrimination policy by:

- a. Providing all vendors and other participants with a clearly

- b. Requiring all vendors and other participants to execute in writing an assurance that they will comply with Title VI and its regulations, and the departmental non-discrimination policy;
- c. Recognizing that assurances of compliance serve primarily as notice to participants in the program that they must comply With Title VI and the departmental non-discrimination policy, and do not automatically indicate actual compliance with said policies;
- d. Conducting Title VI and the departmental non-discrimination compliance reviews of all vendors and other participants, at least once every two years and more frequently in those cases where discrimination is alleged or suspected;
- e. Requiring all vendors and other participants found to be not in compliance to take affirmative action to meet compliance;

- (1) The number of potential clients, actual clients, and staffing pattern according to program areas, by race and sex;

- (2) The number of potential non-English speaking clients, actual clients, and staff according to program areas, by race;

- (3) The number of discrimination complaints.

3. Dissemination of information to beneficiaries and the general public

The department shall take steps to inform all beneficiaries, potential beneficiaries and the general public of the fact that services, financial aid and other benefits are provided on a non-discriminatory basis as required under Title VI and the departmental non-discrimination policy. Further, such persons shall be notified of their right to file a complaint if they believe that they have been discriminated against on the basis of race, color or national origin.
